

Meeting of Belgian-Polish Young Scientists

Program

MORNING SESSION 10:00 - 11:20

Chairman: Prof. dr hab. Andrzej Dworak

1. **Daria Lipowska-Kur**
Degradable polymeric nanoparticles as carriers of therapeutic substances
2. **Metwally Muhammad**
Responsive polymers for rheology control of cementitious materials
3. **Paweł Chaber**
Synthesis and characterisation of PHB oligodiols
4. **Ronald Merckx**
Polymeric light harvesting systems

AFTERNOON SESSION 12:10 - 13.30

Chairman: prof. Richard Hoogenboom

5. **Adriana Jerca**
Poly(2-isopropenyl-2-oxazoline) hydrogels: promising materials in the biomedical field
6. **Mateusz Stojko**
Biodegradable non-woven dressing for difficult-to-heal wound treatment
7. **Debaditya Bera**
Supramolecular interaction induced macromolecular metamorphosis
8. **Paweł Nitschke**
Effect of chemical structure and deposition method on optical properties of polyazomethines with alkyloxy side groups
